Dr. Paul N. Yu of Rochester, New York, has taken office as President of the American Heart Association. A member of the faculty of the University of Rochester Medical Center since 1948, Dr. Yu is Sara McCort Ward Professor of Medicine and Head of the Cardiology Unit.

Born in Kiangsi, China, Dr. Yu was graduated first in his class at the National Medical College of Shanghai in 1939, serving as rotating intern in the First Red Cross Hospital. He was assistant resident, then Chief

Resident Physician at Chungking's Central Hospital from 1940 to 1943.

Dr. Yu joined the Rochester University staff following two years of postgraduate study in Great Britain as the British Council Scholar to the United Kingdom (1945-47). He studied at the British Postgraduate Medical School and Hammersmith Hospital under Sir John McMichael, and attended the London School of Tropical Medicine and Hygiene, and the Edinburgh Postgraduate Medical School.

Dr. Yu also is the Director of Postgraduate Training Program in Cardiology and the Director of the Myocardial Infarction Research Unit at the University of Rochester Medical Center. He is a consulting cardiologist at Genesee, Highland, and St. Mary's Hospitals in Rochester, the Veterans Administration Hospital in Bath, New York, the Newark-Wayne Community Hospital in Newark, New York, and the Frederick Thompson Hospital in Canandaigua, New York.

Long active in programs of the American Heart Association, Dr. Yu was a founding Fellow of the Council on Clinical Cardiology and served as its chairman from 1968-70. He has been on the Association's Board of Directors and Executive Committee since 1967, as a Vice President in 1970-71. In addition, he has served the New York State Heart Assembly for many years and was its President from 1963-1965.

Dr. Yu has published more than 100 scientific articles and a book entitled *Pulmonary Blood Volume in Health and Disease*, issued in 1969. He and Professor John F. Goodwin of London, England, are co-editors of a new series of annual monographs on *Progress in Cardiology*.
